

Arda Ceran

Computer Engineering Student | Software and Graphic Design
Izmir, Turkey | +90 530 131 30 22 | ardaceran2@gmail.com

PROFESSIONAL SUMMARY

Fourth-year Computer Engineering student at Yasar University (50% scholarship). Experienced in C, C++ and Assembly, and currently contributing to two projects: one in artificial intelligence and one involving an emulator. Strong analytical thinking, with additional interest in graphic design, game development and animation.

EDUCATION

Yasar University - Izmir, Turkey
Bachelor of Science in Computer Engineering (50% Scholarship)
August 2023 - Present (expected graduation: 2027)
Izmir Atatürk High School - Graduate

TECHNICAL SKILLS

Programming Languages: C, C++, Assembly
Tools and Software: MATLAB, Microsoft Office (Word, Excel, Outlook)
Areas of Interest: Artificial intelligence, emulation, game development, animation, digital character design

PROJECTS

Artificial Intelligence Project - Team member (ongoing)

- Contribute to the development of an AI-based software project.

Emulator Project - Team member (ongoing)

- Contribute to a project built around an emulator, applying low-level programming knowledge (C, C++, Assembly).

CERTIFICATIONS AND COURSES

MATLAB ODE Solvers for Differential Equations - MathWorks, November 2025

- Solved differential equations describing phenomena from population dynamics to the evolution of the universe.

MATLAB for Science and Engineering Data Analysis - MathWorks, April 2025

- Learned the MATLAB language and environment for analyzing science and engineering data.

ACTIVITIES

Member, Game Development and Animation Club - Yasar University

LANGUAGES

Turkish: Native | **English:** Advanced | **German:** Intermediate

INTERESTS

Reading English novels, music, video games, digital character drawing and design, swimming, playing guitar
